

I Have been studying weather for more than 30 years. I enjoy the fact I can listen to the weather in various parts of the country, when I am on the road and not near a television. Also, with XM radio, when I am traveling on the road I like to know what the road traffic situations are ahead of me. Since I am paying for this service, I would prefer you leave it the way it is. If not, allow us to watch the weather and traffic reports, while driving. That is the safest way, right? I oppose HR 4026. Steven.
